REPORT OF INDEPENDENT AUDITORS

Board of Directors
Global Development Network

We have audited the accompanying statements of financial position of Global Development Network (GDN) as of June 30, 2016, and the related statements of activities and cash flow for the year then ended. These financial statements are the responsibility of GDN's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Global Development Network as of June 30, 2016, and changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was done for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information on functional expenses and contribution received and utilized is presented for purposes of additional analysis and is not a required part of the basic financial statements. That information is the responsibility of GDN's management. Such information has been subjected to auditing procedures applied in audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

GLOBAL DEVELOPMENT NETWORK

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2016

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Statement Presentation - Financial statement presentation follows the guidance contained in Statement of Financial Accounting Standards (SFAS) No. 117, *Financial Statements of Not-for-Profit Organizations*. Accordingly, the Global Development Network (GDN) reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Contributions - Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on existence and/or nature of donor restrictions, if any.

Cash and Cash Equivalents - Cash consists of monies held in demand deposit and money market accounts. Cash equivalents are all highly liquid investments with initial maturity dates of three months or less.

Investments- Current investments are carried at the lowest of cost of quoted/fair value computed category wise. Long term investments are stated at the fair market value.

Property and Equipment - Property and equipment are recorded at cost. Major additions are capitalized while replacements, maintenance, and repairs that do not improve or extend the lives of the respective assets are expensed currently. Donations of property and equipment are recorded as contributions at their estimated fair value at the date of donation. Such donations are reported as increases in unrestricted net assets unless the donor has restricted the donated asset to a specific purpose or for use in a future period. Depreciation and amortization are provided on a straight-line basis over the estimated useful lives of the assets. The cost of property and equipment retired or disposed off is removed from the accounts along with the related accumulated depreciation or amortization, and any gain or loss is reflected in income. The property and equipments that are purchased specifically from the donor funds for any particular projects are recorded at a nominal value of \$1 per asset to keep a track of the assets. The balance is expensed off in the year of acquisition.

Functional Allocation of Expenses - The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Foreign Currency - GDN records pledges received in foreign currencies at the exchange rate on the date of the pledge. In case of Multiyear Foreign Currency Funding, the rate prevalent on the first day of the financial year is taken to accrue the pledge relevant to that year. Increases or decreases due to fluctuations in exchange rates, whether realized or remaining unrealized as at the end of the financial year are included in "foreign currency exchange gain" in the Statement of Activities.

NOTE 2. ORGANIZATION AND TAX STATUS

GDN is a Public International Organization that promotes social science research in developing and transition countries. It empowers local researchers by giving them access to financial resources, to information, to training and mentoring services and to a global network of development researchers. Through its various projects, it contributes to the generation of policy-relevant knowledge on major development issues, and to the interaction between local researchers, their global peers, policymakers and other development stakeholders.

Created within the World Bank in 1999, GDN became independent in 2001 and was transformed into a Public International Organization in 2005 with the signature of an international agreement. Colombia, Hungary, India, Spain and Sri Lanka have become parties to this agreement. GDN is a public international organization established under an international agreement among sovereign States and is therefore governed by international law and an International Assembly and its strategy and activities are overseen by a Board of Directors.

The income of GDN is not liable to taxation in India. This is in accordance with an agreement between the Government of India and GDN dated 19th May 2008. The salaries and allowances of GDN's expatriate staff are also exempted from tax under the same agreement.

Global Development Network has prepared its first independent financials for FY 2015-16 after split of books of accounts with GDN Inc. As this is the first year of operation, there are no comparative figures of last year.

GDN is global. It:

- Supports multidisciplinary research in the social sciences and mobilizes resources around the world.
- Produces policy-relevant knowledge on a global scale.
- Promotes the application of global knowledge through its local "reinvention."

GDN is for *development*. It:

- Builds research capacity to advance development and alleviate poverty.
- Fosters research in developing and transition economies.
- Disseminates development knowledge to the public and policymakers.
- Bridges the gap between ideas and policies.

GDN is a *network*. It:

- Links research institutes from 10 regions and more than 100 countries.
- Coordinates research and strengthens partnerships worldwide.
- Facilitates knowledge sharing among researchers and policymakers.
- Promotes multidisciplinary collaboration among researchers.

GDN activities are designed to meet the needs of research institutes, as determined through surveys and direct consultations, as well as to provide policymakers with relevant and timely information. These activities include:

Research Capacity Building Project (RCBP):- This project supports quality research in many countries, involving local research teams from across the world. The multi-country studies allow for both comprehensive and comparative perspective across regions and countries.

Tripartite Collaboration - GDN-USAID-AERC - Development Aid Effectiveness in Africa

The United States Agency for International Development's (USAID) Bureau for Policy, Planning, and Learning in collaboration with the Bureau for Africa's Office for Sustainable Development is supporting a joint initiative between GDN and our partners in SSA AERC to promote African research on key development issues and capacity building on the continent. The initiative aims to build a thematic network of researchers-donors-policy makers addressing the issues of poverty reduction and development effectiveness. The program undertakes tailored activities to promote African voices and perspectives in debates about aid effectiveness and implications of the changing donor landscape in Africa, including through research and capacity building and facilitating dialogues and discussions between researchers and policymakers (from both aid recipient and donor countries).

Under this program, AERC has issued 5 grants under the Regional Research Competition, for which mentoring and peer review support has been set-up and organized a Communication and Policy Outreach Training Workshop in Addis Ababa on November 29th to December 3rd 2015 for grantees. The AERC team also commissioned the analytical papers that were at the center of an Africa-wide High-Level Senior Policy Seminar on Financial Inclusion in Nairobi, in March 24 – 25, 2016. GDN has commissioned three overview papers from senior African academics on the future of aid effectiveness research, specifically on recipient-driven ODA accounting practices, sub-regional debates on the concept of aid effectiveness, and on the spaces for collaborative research to inform SDG implementation by governments and ODA actors.

Over \$ 61,000 in 2016 was spent on RCBP.

Other Programs:

Commitment to Equity Institute (Subcontract - The Administrators of the Tulane Educational Fund): Tulane's purpose is to create, communicate, and conserve knowledge in order to enrich the capacity of individuals, organizations and communities to think, to learn, and to act and lead with integrity and wisdom. Tulane pursues this mission by cultivating an environment that focuses on learning and the generation of new knowledge; by expecting and rewarding teaching and research of extraordinarily high quality; and by fostering community-building initiatives as well as scientific, cultural and social understanding that integrate with and strengthen learning and research. This mission is pursued in the context of the unique qualities of our location in New Orleans and their continual aspiration to be a truly distinctive international university. The Global Development Network Center will assist Tulane University's Commitment to Equity Institute in support of its activities under the Bill & Melinda Gates Foundation to support and strengthen the Research, Policy Tools, Data Center, Advisory and Training on Social Spending and Taxation.

In the case of the Global Development Network Center their mission and activities include:

- Supporting the research capacity of social scientists in developing countries, and connecting them as a cadre of global leaders in development research.
- Fostering new ways of producing, structuring and mobilizing development knowledge in key research areas.
- Interconnecting researchers, knowledge, expertise and resources in support of development research capacity in the Global South.

Over \$ 173,000 in 2016 was spent on Other Programs - Commitment to Equity Institute

Campbell Collaboration: Campbell Collaboration, a non-profit organization is incorporated in the state of Pennsylvania, USA having its purpose to promote positive social and economic change through production and use of systematic reviews and other evidence synthesis for evidence-based policy and practice. The Campbell Collaboration (C2) comprises five Coordinating Groups (CGs: Crime and Justice, Education, International Development, Social Welfare and the Knowledge Translation and Implementation (KTI) Group), and a Methods Group. The C2 Steering Group has resolved to build the international profile of Campbell, with the ultimate goal of increasing the use of evidence in policy. To this end, the Campbell Collaboration will support the activities of the co-Chairs and CEO.

Over \$150,000 was spent in 2016 on Other Program – Campbell Collaboration
