

# INDUSTRIAL COMPETITIVENESS

*Researching the 'how' of industrial policies in Africa*

## About the Program

The program mobilizes developing country researchers to produce contextualized knowledge on the issue of industrial policies in Africa. The research is expected to make a unique contribution to the understanding of the processes through which government and companies interact to improve – or conversely penalize – industrial productivity, as well as to the measurement of these impacts in developing countries. Instead of studying the ‘what’, researchers are looking at ‘how’ policies work, or do not work, so that governments from developing countries are more reliably informed, through a bottom-up approach.

The Global Development Network (GDN) is working closely with selected teams in Côte d'Ivoire, Ethiopia & Ghana to provide them with the support needed, beyond funding, to define the scope of the research, to effectively implement their research agenda, to monitor the research outcomes, and to assist them in publishing the final research. In addition, GDN is providing mentoring services to the teams. Each team benefits from advisors selected by GDN who provide guidance on the research design, implementation, analysis and effective research outcomes through face-to-face meetings, seminars for peer-reviews and online communication. During the program, the teams, their advisors and GDN, gather periodically for methodological, peer review and dissemination workshops. In addition, the overall program also benefits from world-class oversight from reputed advisors around the world.

## Advisors

- ✓ Antonio Andreoni, Senior Lecturer in Economics, SOAS, University of London and Research Director, Anti-Corruption Evidence (ACE) Research Partnership Consortium
- ✓ François Bourguignon, Emeritus Professor, Paris School of Economics, France and Former Chief Economist, The World Bank
- ✓ Ha-Joon Chang, Director of the Centre for Development Studies, University of Cambridge
- ✓ Nobuya Haraguchi, Research Officer, Department of Policy, Research and Statistics of UNIDO, Vienna
- ✓ Célestin Monga, Vice President and Chief Economist, African Development Bank
- ✓ John Page, Senior Fellow, Global Economy and Development, The Brookings Institution
- ✓ Dani Rodrik, Ford Foundation Professor of International Political Economy, John F. Kennedy School of Government, Harvard University
- ✓ Charles Sabel, Maurice T. Moore Professor of Law and Social Science, Columbia Law School
- ✓ Abebe Shimeles, Acting Director, Macroeconomics Policy, Forecasting and Research

### Program

Mobilizing Local  
Knowledge to Improve  
Competitiveness  
Strategies

### Funding

US\$ 518,000 from the  
Finance, Competitiveness  
and Innovation Global  
Practice of the World Bank  
financed by the  
Competitive Industries and  
Innovation Program (CIIP)

### Location

Côte d'Ivoire,  
Ethiopia & Ghana

### Duration

Sep. 2015 - Nov. 2018
