Beyond North and South Differences: When Germany  
and Brazil Work Together for World Development

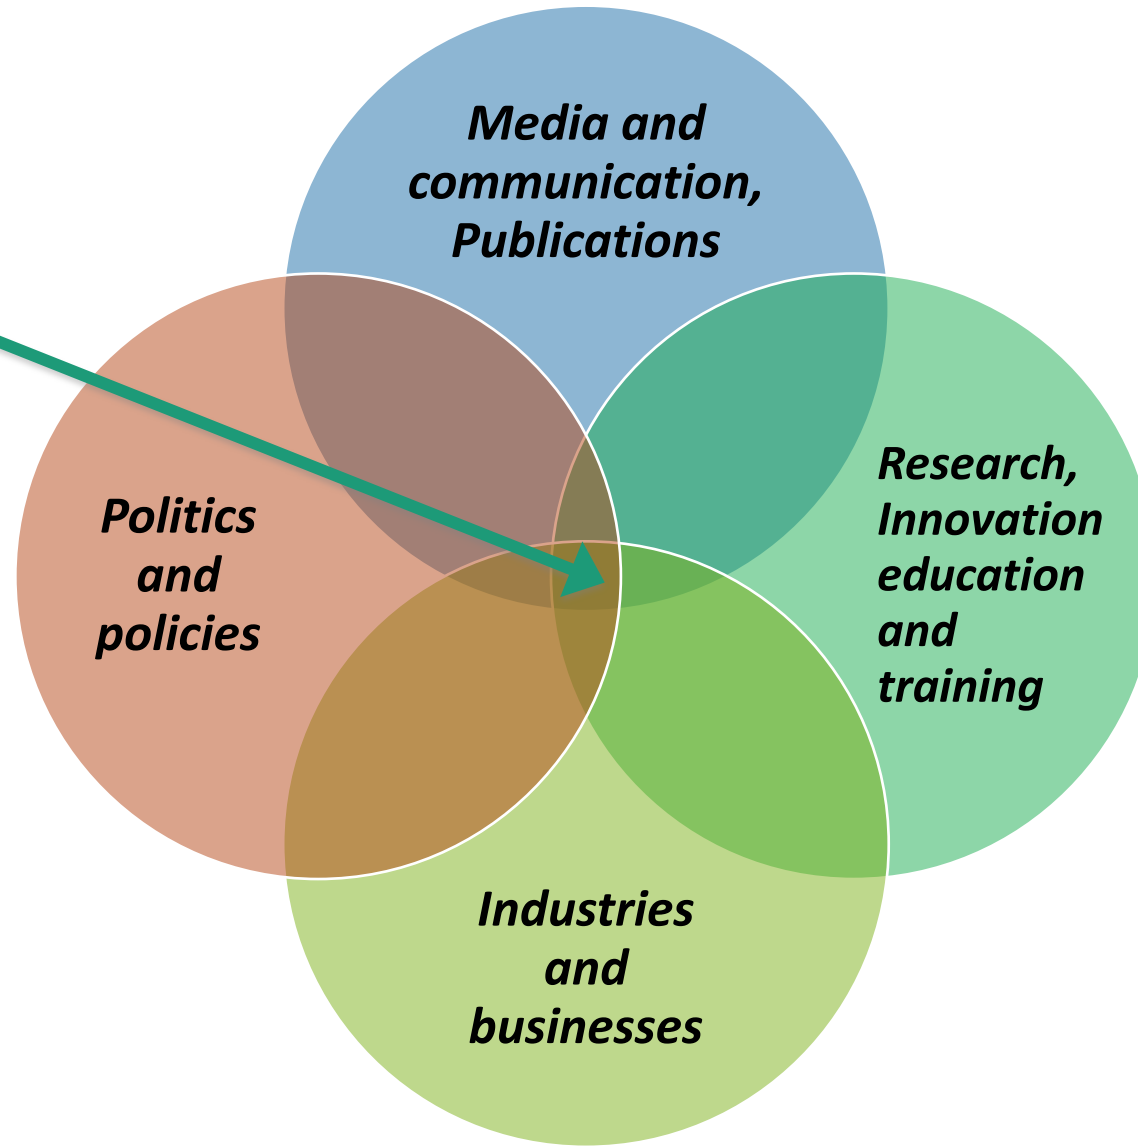

The background features several sets of concentric, curved lines in shades of gray, some solid and some dashed, creating a sense of motion and depth. A dark green rectangular box with a white border and a small white triangle at the bottom center is positioned on the left side of the slide.

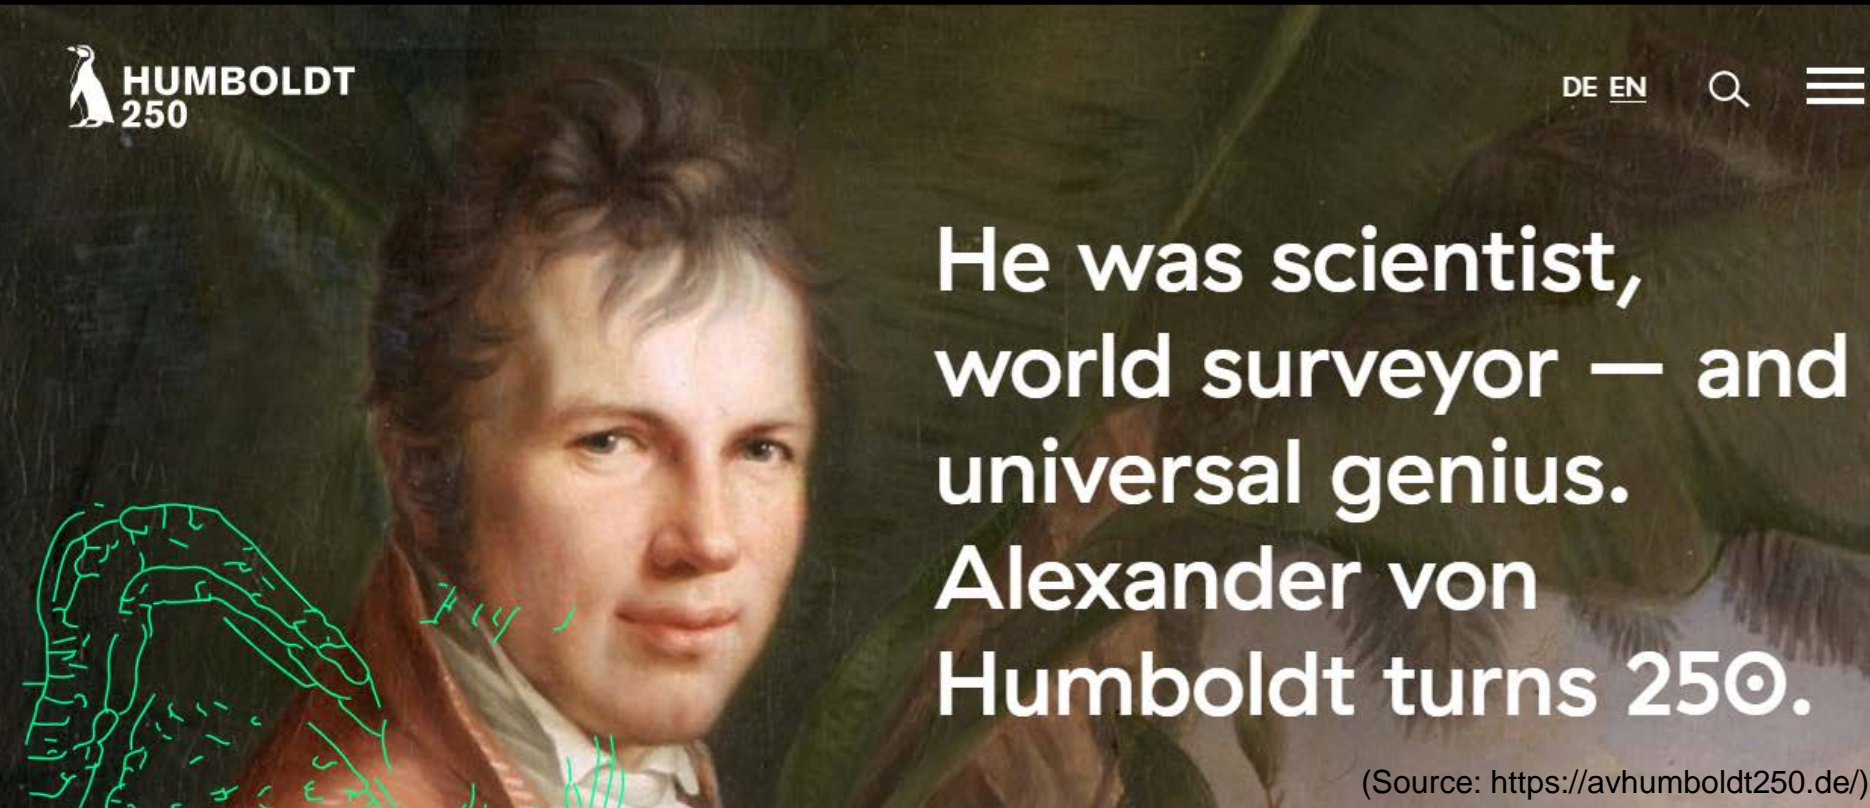

## Role of Young researchers

- Stenghs
- Challenges
- Opportunities

# A possible framework?

ALL ARE EQUALLY  
IMPORTANT

He was scientist,  
world surveyor — and  
universal genius.  
Alexander von  
Humboldt turns 250.

(Source: <https://avhumboldt250.de/>)

*Alexander von Humboldt believed “key to understanding nature was interconnectedness.”*

He noted in his diary: **“Alles ist Wechselwirkung,” - “everything is interconnected and interdependent”.**
